Melbourne Polytechnic Values

Welcoming

We all belong. We welcome and appreciate diverse ideas, and we embrace differences. We are open-minded, kind and compassionate so that everyone feels valued and respected. We create safe spaces for every person to come with their whole self and achieve their full potential. When everyone feels supported, our community is a better place.

Curious

We have a passion for learning. Curiosity inspires us to be creative and find different ways of looking at the world. When we listen well and ask thoughtful questions, we learn more and can adapt well to change. Our enthusiasm for learning and sharing knowledge drives us to improve. We are open to, and respectful of, everyone's experience and contribution. We seek out, and are receptive to, new skills and ideas. We find better ways of doing things that benefit our community.

Collaborative

We are better together. We support and empower each other as we work towards our shared vision. We achieve more when we share our work, ideas and solutions in a respectful way. We make it easy to connect and collaborate with each other, our students, industry and community.

Accountable

We all act with integrity. We hold ourselves to a high standard and are responsible for our actions. We take our role seriously and our vision informs every decision we make. In every interaction we are honest, respectful and fair. We deliver on our commitments to each other, our students, industry and community.

KEY RESPONSIBILITIES

- Plan, develop, deliver, and assess as a teacher within the Electrical Department.
- Communicate regularly with the Program Leader and other staff within electrical programs to establish a flexible team environment and consistency in resource and delivery strategies.
- Develop, maintain, and evaluate student learning programs, projects, and associated materials.
- Establish and maintain a learning environment that empowers and encourages students to take personal responsibility and is encouraging of them.
- Communicate and cooperate with colleagues in team teaching and other situations, including research of mentoring models.
- Assist in the development and maintenance of quality assurance processes in relation to program and course administration, design, delivery assessment, and evaluation of training materials.
- Keeping informed of educational developments and related government policies that will affect program delivery in the area of electrical programs or particular specialist areas or programs.
- Staying abreast of current thinking and developments in technology that impact on the particular areas of expertise.

- Work within the quality systems (including the Australian Quality Training Framework), prepare lesson plans, develop work units, communicate, and maintain records to a high standard as required.
- Assist in securing and managing any work placement or vocational experience component connected to program delivery.
- Provide pre-course advice to students and participate in the student selection, enrolment, and induction processes.
- Conduct required pre-training assessment reviews and assessment requirements connected to contract delivery for the program/s.
- Maintain and assist in the accurate recording of information in learners' portfolios.
- Contact learners to discuss absence and support their return to the classroom, wherever possible (timings of contact to be determined with line manager).
- Develop teaching resources and assessments that meet curriculum and contract requirements.

KEY ACCOUNTABILITIES

- Embrace new technologies and innovations.
- Identify and implement continuous improvement strategies.
- Identify, create and participate in professional development relevant to teaching and the maintenance of vocational currency.
- Maintain accurate records of student attendance, progress, and assessment in line with Melbourne Polytechnic and contractual requirements. This includes involvement in the selection and assessment of intending students, assessment and documentation of students' progress within the program as required and the identification and introduction of strategies to assist students experiencing learning and/or settlement difficulties.
- Participate in classes and programs at times and days which best suit the learners' needs, as negotiated with relevant program leadership.
- Participate in staff meetings, ongoing curriculum development, and other relevant professional development activities.
- Participate in the marketing and promotion of the courses delivered by the electrical department.
- Conduct validation and moderation sessions with other providers and/or industry.
- Demonstrate flexibility as to levels, funding streams, and the focus of delivery to maintain a learner-centered approach.
- Support other teachers and team members in the site or program by cooperative teaching, creating excursions, planning incursions, or supporting learners in learning from group projects.
- Support the electrical programs to develop and showcase innovative responses to learner needs, such as study skills mentorship, vocational experience and training, and dual-course delivery.
- Use diverse and appropriate adult learning methods.
- Work within the framework of Melbourne Polytechnic's policies, procedures, and legislative/regulatory requirements.
- Maintain up-to-date knowledge of Institute Occupational Health and Safety requirements and Anti-Discrimination, Quality Assurance, and Continuous Improvement policies and guidelines.

KEY SKILLS AND EXPERIENCE

- Required Electrical qualifications, a degree, Diploma or Certificate relevant in both content and academic level and industry experience relevant to the department.
- TAE40116 Certificate IV in Training and Assessment or a Certificate IV in Training and Assessment (TAE40110) including Design and Develop Assessment Tools (TAEASS502) and Address Adult language, Literacy and Numeracy (LLN) skills (TAELLN411) or (TAELLN401A)
- Minimum 5 years' experience in the relevant field.
- Vocational experience and current competence within the Electrical industry.

- Demonstrated ability to teach Certificate 2, Certificate 3 and Certificate 4 Electrical courses as well as Electrical exams and ESV certified professional development courses.
- Demonstrated capacity to effectively lead and manage a team of staff in the design, implementation and evaluation of innovative teaching materials, products and services.
- Excellent oral and written communication skills as well as the ability to effectively resolve issues surrounding administrative systems and staff rosters.
- Well-developed skills in teaching including the ability to select and use a wide range of teaching and assessment strategies appropriate to a diverse student population and the competency standards required.
- Capacity to work effectively in a team environment and to adapt effectively to change.
- Capacity to plan, schedule and meet agreed deadlines in the completion of duties.
- Demonstrated knowledge and understanding of policy and legislation pertaining to the position, including but not limited to; Anti-Discrimination legislation; Occupational Health and Safety policies; SNR standards for ASQA Registered Training Organisations; Quality Assurance; and Continuous Improvement.
- Current Working with Children's Check.
- Knowledge of current issues in vocational education and training particularly as they relate to the areas taught within the program area – desirable.
- Knowledge of Learning Management Systems and the ability to support the team to build curriculum – desirable.
